

Dolphin® 9500 Series ChargeBase Four-Slot Charging Cradle

Features

Supports all Dolphin 9500 Series Terminal Configurations

Four Terminal Capacity - Reduces peripheral hardware costs

Intelligent Battery Charging - Leave terminals in the base without damaging terminals, their battery packs, or the base

Convenient Storage - Can hold up to four terminals

Dock and Charging LED Indicators

Desk or Wall Mountable - Ergonomic form factor allows easy installation in various enterprise environments

The Dolphin ChargeBase is a four-slot charging cradle for Dolphin 9500 Series mobile computers that charges the main Li-ion battery pack of each terminal in less than four hours.

Each slot charges independently of the other slots. When a full charge is complete, charging automatically switches to a trickle charge, thus preserving and ensuring a full battery charge.

The open-slot design allows easy access to docked terminals while holding each securely. The ergonomic form factor ensures that the unit can be easily mounted to a wall or desktop.

Two LED indicators on the front of each slot enable you to monitor each Dolphin terminal. DOCK LEDs indicate when terminals are properly seated. Charge LEDs indicate charging.

To learn how the Dolphin 9500 Series ChargeBase can work for you, contact us at any of the locations listed on the back or visit us at www.handheld.com.

Dolphin 9500 Series ChargeBase Specifications

Structural

Dimensions:	4" X 5" X 20" (10.1 X 12.7 X 50.8 cm.)
Weight:	42 oz. (1.19 kg.)
Material:	Case: Polycarbonate ABS blend Color: Gray
Mounting:	Wall or desktop mountable
Power:	9.5 Volts DC, 8.0 A

Environmental

Operating Temperature:	32° to 104°F (0° to 40°C)
Storage Temperature:	-4° to 158°F (-20° to 70°C)
ESD:	10 KVA immunity on all surfaces
Humidity:	90% relative humidity (non-condensing)

Charging

Standard Charge:	Completes 100% charge in four hours or less Independent charging of the main battery in each terminal
CHARGE LED:	Solid Green Indicates that charging is in progress
DOCK LED:	Solid Green Indicates that the Dolphin terminal is properly seated

Agency Approvals

Charging:	CE Marking (EMC)
Fire Retardant:	UL 94-VO
