

Industrial Read / Write Devices

13,56 MHz midrange reader

13.56 MHz Midrange Reader / Writer SIR-2501

- reader for industrial application
- multi-Tag compatible ¹⁾ :I -Code and ISO 15693 or Tag-It and ISO 15693
- software update possible (Flash memory)
- housing (IP65)
- simple power supply
- antenna mounted inside
- CE and radio approval  

Technical Data

Dimensions:	(l x w x h) (250 x 150 x 60)mm
Power supply:	9V to 24V AC / DC
Current consumption:	< 125mA approx. 30mA stand-by
Transmission frequency:	13,56 MHz
Antenna:	integrated
Interface:	serial, asynchronous,9600 Baud, RS232
Housing:	IP 65, plastic
Operating temperature:	t. b. d.

¹⁾ For details of supported transponder modes and functions, please refer to scemtec STX – ETX protocol specification

Order Information

The packing unit contains 1 SIR-2501 systems, the certifications and the documentation.
